## **CORPORATE TRAINING**

### **Energy Efficiency/Conservation sensitization program**

**For: General Staff**

**Duration:** ½ day –2 sessions

Topics covered

- Energy overview- Basics/General aspects- Need for Energy Efficiency/Conservation
- Energy efficiency in Thermal & Electrical utilities
- ISO 50001-Energy Management standard [EnMS]- Integration with QMS/EMS/OSHAS-PDCA in Energy Management
- Carbon foot print mitigation-through Energy Efficiency
- Future Energy-Immediate/Long term-Renewable/Clean Technologies

**For: Operators/Front liners**

**Duration:** 2 hours –1 session

Topics covered

- Energy overview- Basics/General aspects- Need for Energy Efficiency/Conservation
- Energy efficiency in Thermal & Electrical utilities
- ISO 50001-Energy Management standard [EnMS]- Integration with QMS/EMS/OSHAS-PDCA in Energy Management
- Simple house keeping measures- Energy as a cost
- Future Energy-Immediate/Long term-Renewable/Clean Technologies

**For: Technical staff**

**Duration:** 1 day –4 sessions

Topics covered

- Energy overview- Basics/General aspects- Need for Energy Efficiency/Conservation
- Energy efficiency in Thermal Utilities
- Energy efficiency in Electrical utilities
- ISO 50001-Energy Management standard [EnMS]- Integration with QMS/EMS/OSHAS-PDCA in Energy Management
- Carbon foot print mitigation-through Energy Efficiency
- Energy performance assessment of Equipments & Utilities- limited to 4 areas
- Case studies-successful Energy conservation projects of related Industries
- Future Energy-Immediate/Long term-Renewable/Clean Technologies
